

Department of Health and Human Services

Part 1. Overview Information

Participating Organization(s)

National Institutes of Health ([NIH](#))

Components of Participating Organizations

National Cancer Institute ([NCI](#))

National Eye Institute ([NEI](#))

National Heart, Lung, and Blood Institute ([NHLBI](#))

National Human Genome Research Institute ([NHGRI](#))

National Institute on Aging ([NIA](#))

National Institute on Alcohol Abuse and Alcoholism ([NIAAA](#))

National Institute of Allergy and Infectious Diseases ([NIAID](#))

National Institute of Arthritis and Musculoskeletal and Skin Diseases ([NIAMS](#))

National Institute of Biomedical Imaging and Bioengineering ([NIBIB](#))

Eunice Kennedy Shriver National Institute of Child Health and Human Development ([NICHD](#))

National Institute on Deafness and Other Communication Disorders ([NIDCD](#))

National Institute of Dental and Craniofacial Research ([NIDCR](#))

National Institute of Diabetes and Digestive and Kidney Diseases ([NIDDK](#))

National Institute on Drug Abuse ([NIDA](#))

National Institute of Environmental Health Sciences ([NIEHS](#))

National Institute of General Medical Sciences ([NIGMS](#))

National Institute of Mental Health ([NIMH](#))

National Institute of Neurological Disorders and Stroke ([NINDS](#))

National Institute of Nursing Research ([NINR](#))

National Institute on Minority Health and Health Disparities ([NIMHD](#))

National Library of Medicine ([NLM](#))

Fogarty International Center ([FIC](#))

National Center for Complementary and Integrative Health ([NCCIH](#))

National Center for Advancing Translational Sciences ([NCATS](#))

Division of Program Coordination, Planning and Strategic Initiatives, Office of Research Infrastructure Programs ([ORIP](#))

Office of Strategic Coordination ([Common Fund](#))

All applications to this funding opportunity announcement should fall within the mission of the Institutes/Centers. The following NIH Offices may co-fund applications assigned to those Institutes/Centers.

Office of Behavioral and Social Sciences Research ([OBSSR](#))

Office of Research on Women's Health ([ORWH](#))

Funding Opportunity Title

Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional)

Activity Code

Administrative Supplement

Additional funds may be awarded as supplements to parent awards using the following Activity Code(s):

Administrative supplement requests must be submitted on paper for the following activity codes:

[G12](#) Research Centers in Minority Institutions Award

[P01](#) Research Program Projects

[P20](#) Exploratory Grants

[P30](#) Center Core Grants

[P40](#) Animal (Mammalian and Nonmammalian) Model, and Animal and Biological Material Resource Grants

[P41](#) Biotechnology Resource Grants

[P50](#) Specialized Center

[P51](#) Primate Research Center Grants

[P60](#) Comprehensive Center

[P2C](#) Resource-Related Research Multi-Component Projects and Centers

[PM1](#) Program Project or Center with Complex Structure

[PN2](#) Research Development Center

[S06](#) Research-Related Programs

[U10](#) Cooperative Clinical Research – Cooperative Agreements

[U19](#) Research Program – Cooperative Agreements

[U2C](#) Resource-Related Research Multi-Component Projects & Centers

Cooperative Agreements

[U41](#) Biotechnology Resource Cooperative Agreements

[U42](#) Animal (Mammalian and Nonmammalian) Model, and Animal and Biological Materials Resource Cooperative Agreements

[U45](#) Hazardous Waste Worker Health and Safety Training Cooperative Agreements

[U54](#) Specialized Center- Cooperative Agreements

[U56](#) Exploratory Grants – Cooperative Agreements

[UC2](#) High Impact Research and Research Infrastructure Cooperative Agreement Programs

[UC3](#) Biomedical Research, Development, and Growth to Spur the Acceleration of New Technologies (BRDG-SPAN) Cooperative Agreement Program

[UC7](#) National Biocontainment Laboratory Operation Cooperative Agreement

[UG4](#) National Network of Libraries of Medicine

[UH4](#) Hazmat Training at DOE Nuclear Weapons Complex

[UL1](#) Linked Specialized Center Cooperative Agreement

[UM2](#) Program Project or Center with Complex Structure Cooperative Agreement

Administrative supplement requests may be submitted electronically for the following activity codes:

[C06](#) Research Facilities Construction Grant
[D43](#) International Training Grants in Epidemiology
[D71](#) International Training Program Planning Grant
[DP1](#) NIH Director's Pioneer Award (NDPA)
[DP2](#) NIH Director's New Innovator Awards
[DP3](#) Type 1 Diabetes Targeted Research Award
[DP4](#) NIH Director's Pathfinder Award- Multi-Yr Funding
[DP5](#) Early Independence Award

[DP7](#) NIH Director's Workforce Innovation Award
[F05](#) International Research Fellowships
[F30](#) Individual Predoctoral NRSA for MD/PhD Fellowships
[F31](#) Predoctoral Individual National Research Service Grant Award
[F32](#) Postdoctoral Individual National Research Service Award
[F33](#) National Research Service Awards for Senior Fellows

[F99/K00](#) Pre-doc to Post-doc Transition Award/ Post-doctoral Transition Award
[G08](#) Resources Project Grant (NLM)
[G13](#) Health Sciences Publication Support Awards (NLM)
[G20](#) Grants for Repair, Renovation and Modernization of Existing Research Facilities
[K01](#) Research Scientist Development Award - Research & Training
[K02](#) Research Scientist Development Award – Research
[K05](#) Research Scientist Award
[K06](#) Research Career Awards
[K07](#) Academic/Teacher Award (ATA)
[K08](#) Clinical Investigator Award (CIA)
[K12](#) Physician Scientist Award (Program) (PSA)
[K18](#) Career Enhancement Award
[K22](#) Career Transition Award
[K23](#) Mentored Patient-Oriented Research Career Development Award
[K24](#) Midcareer Investigator Award in Patient-Oriented Research
[K25](#) Mentored Quantitative Research Career Development Award
[K26](#) Midcareer Investigator Award in Biomedical and Behavioral Research

[K38](#) Early Stage Mentored Research and Career Development
[K43](#) International Research Career Development Award

[K76](#) Emerging Leaders Career Development Award

[K99/R00](#) Career Transition Award/Research Transition Award
[KL2](#) Mentored Career Development Award
[KM1](#) Institutional Career Enhancement Awards

[OT1](#) Pre-Application for an Other Transaction Award

[OT2](#) Research Project - Other Transaction Award

[OT3](#) Other Transaction Multiple-Component Research Award

[RC2](#) High Impact Research and Research Infrastructure Programs

[RC3](#) Biomedical Research, Development, and Growth to Spur the Acceleration of New Technologies (BRDG-SPAN) Program

[RC4](#) High Impact Research and Research Infrastructure Programs – Multi-Yr Funding

[RM1](#) Research Project with Complex Structure

[R00](#) Research Transition Award

[R01](#) Research Project Grant

[R03](#) Small Grant Program

[R13](#) Support for Conferences and Scientific Meetings

[R13/U13](#) Support for Conferences and Scientific Meetings

[R15](#) Academic Research Enhancement Award (AREA)

[R18](#) Research Demonstration and Disseminations Projects

[R21](#) Exploratory/Developmental Research Grant Award

[R21/R33](#) Phased Innovation Award

[R24](#) Resource-Related Research Projects

[R25](#) Education Projects

[R33](#) Exploratory/Developmental Grants Phase II

[R34](#) Clinical Trial Planning Grant Program

[R35](#) Outstanding Investigator Award

[R36](#) Dissertation Award

[R37](#) Method to Extend Research in Time (MERIT) Award

[R38](#) Mentored Research Pathway in Residency

[R41](#) Small Business Technology Transfer (STTR) Grant - Phase I only

[R41/R42](#) Small Business Technology Transfer (STTR) Grant - Phase I, Phase II, and Fast-Track

[R42](#) Small Business Technology Transfer (STTR) Grant - Phase II only

[R43](#) Small Business Innovation Research (SBIR) Grant - Phase I only

[R43/R44](#) Small Business Innovation Research (SBIR) Grant - Phase I, Phase II, and Fast-Track

[R44](#) Small Business Innovation Research (SBIR) Grant - Phase II only

[R61/R33](#) Exploratory/Developmental Phased Award

[RC1](#) NIH Challenge Grants and Partnerships Program – Phase I

[RC2](#) High Impact Research and Research Infrastructure Programs

[RC3](#) Biomedical Research, Development, and Growth to Spur the Acceleration of New Technologies (BRDG-SPAN) Program

[RC4](#) High Impact Research and Research Infrastructure Programs – Multi-Yr Funding

[RM1](#) Research Project with Complex Structure

[S07](#) Biomedical Research Support Grants

[S10](#) Biomedical Research Support Shared Instrumentation Grants

[S11](#) Minority Biomedical Research Support Thematic Project Grants

[S21](#) Research and Institutional Resources Health Disparities Endowment Grants – Capacity Building

[SB1](#) Commercialization Readiness Program

[SC1](#) Research-Enhancement Award

[SC2](#) Pilot Research Project

[SC3](#) Research Continuance Award

[T14](#) Conferences

[T15](#) Continuing Education Training Grants

[T32](#) Institutional National Research Service Award (NRSA)
[T34](#) MARC Undergraduate NRSA Institutional Grants
[T35](#) National Research Service Award (NRSA) Short -Term Research Training
[T36](#) MARC Ancillary Training Activities Grant
[T37](#) Minority International Research Training Grants

[T42](#) Educational Resource Center Training Grants
[T90/R90](#) Interdisciplinary Research Training Award/Interdisciplinary Regular Research Training Award
[TL1](#) Linked Training Award
[U01](#) Research Project – Cooperative Agreements

[U13](#) Conferences Cooperative Agreements
[U18](#) Research Demonstration – Cooperative Agreements
[U2R](#) International Training Cooperative Agreement
[U24](#) Resource-Related Research Projects – Cooperative Agreements [U34](#) Clinical Planning Grant Cooperative Agreement

[U44](#) Small Business Innovation Research (SBIR) Cooperative Agreements - Phase II
[UB1](#) Commercialization Readiness Program - Cooperative Agreement

[UC4](#) High Impact Research and Research Infrastructure - Cooperative Agreement Programs
[UG1](#) Clinical Research Cooperative Agreements - Single Project

[UG3/UH3](#) Exploratory/Developmental Phased Award Cooperative Agreement

[UH2](#) Exploratory/Developmental Cooperative Agreement Phase I
[UH2/UH3](#) Phase Innovation Awards Cooperative Agreement
[UH3](#) Exploratory/Developmental Cooperative Agreement Phase II

[UM1](#) Multi-Component Research Project Cooperative Agreements

[UP5](#) Cooperative Agreement

Announcement Type

Reissue of [PA-16-287](#)

 - **August 14, 2019** - Notice of Special Interest (NOSI): Public Health Research on Cannabis. See Notice [NOT-DA-19-065](#).
 - **July 30, 2019** - Notice of Special Interest: Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) Applications Directed at the Adoption of the Fast Healthcare Interoperability Resources (FHIR) Standard. See Notice [NOT-OD-19-127](#).
 - **July 15, 2019** - Notice of Special Interest (NOSI): Accelerate Dissemination of Emerging Glycoscience Tools through Collaborations Between Developers and Early Adopters. See Notice [NOT-RM-19-012](#).
 - **July 01, 2019** - Notice of Special Interest (NOSI): Availability of Administrative Supplements for Enhancing Utility and Usage of Common Fund Data Sets. See Notice [NOT-RM-19-009](#).
 - **May 14, 2019** - Notice of Special Interest: Alternatives to the Use of Human Fetal Tissues in NICHD-supported Research. See Notice [NOT-HD-19-011](#).
 - **May 13, 2019** - NIGMS-Managed HIV/AIDS Research Portfolio Transitioning to NIAID. See Notice [NOT-GM-19-039](#).
 - **May 9, 2019** - Notice of Availability of Administrative Supplements to NIBIB C3i Participants for Advancing Innovation. See Notice [NOT-EB-19-013](#).
 - **May 8, 2019** - Notice of Special Interest: Administrative Supplements to Enhance Inclusion of Native Hawaiian/Other Pacific Islander Populations in Minority Health and Health Disparities Research. See Notice [NOT-MD-19-023](#).
 - **May 6, 2019** - Notice of Special Interest for Collaborative Activities to Enhance the Nanomaterials Health Implications Research (NHIR) Consortium Efforts (Admin Supp - Clinical Trial Not Allowed). See Notice [NOT-ES-19-013](#).
 - **April 17, 2019** - Notice of Special Interest for Administrative Supplements for Research on Sexual and Gender Minority (SGM) Populations (Admin Supp Clinical Trial Optional). See Notice [NOT-OD-19-102](#).
 - **April 09, 2019** - Notice of Preapplication Webinar for Administrative Supplements for Activities to Promote Human Immune-Representing Oncology Models. See Notice [NOT-CA-19-040](#).
 - **April 2, 2019** - Notice of Special Interest: Availability of Administrative Supplements for NIMH Grants to Expand Suicide Research. See Notice [NOT-MH-19-026](#).
 - **March 27, 2019** - Notice of Availability of Administrative Supplements for the INCLUDE (Investigation of Co-occurring Conditions across the Lifespan to Understand Down syndrome) Project (Administrative

Supplement/ Clinical Trial Optional). See Notice [NOT-OD-19-087](#).

- **March 14, 2019** - Notice of Special Interest: Availability of Administrative Supplements to INBRE Awards to Fund Research in Collaboration with COBRE or IDeA-CTR Awards. See Notice [NOT-GM-19-025](#).
- **March 12, 2019** - Notice of Availability of Administrative Supplements to Promote Data Sharing in Cancer Epidemiology Studies. See Notice [NOT-CA-19-031](#).
- **March 12, 2019** - Notice of Availability of Administrative Supplements for Geospatial, Multilevel, and Contextual Approaches in Cancer Control and Population Sciences. See Notice [NOT-CA-19-029](#).
- **March 5, 2019** - Notice of Special Interest: Administrative Supplements for Activities to Promote Human Immune-Representing Oncology Models. See Notice [NOT-CA-19-028](#).
- **March 4, 2019** - Notice of Special Interest: Alternatives to the Use of Human Fetal Tissues in Ocular Research. See Notice [NOT-EY-19-011](#).
- **February 13, 2019** - Notice of Special Interest: Collaborative Activities to Expedite Environmental Health Science Research, Translation, and Community Engagement Across EHS Core Centers. See Notice [NOT-ES-19-007](#).
- **February 07, 2019** - Notice of Special Interest: Administrative Supplements for Characterization and Further Development of Humanized Immune System (HIS) Mice. See Notice [NOT-AI-19-040](#).
- **February 07, 2019** - Notice of Special Interest in Supporting Administrative Supplements for Fetal Alcohol Spectrum Disorders (FASD). See Notice [NOT-AA-19-009](#).
- **January 10, 2019** - Administrative Supplements to NIGMS Predoctoral Training Grants for Development of Curricular or Training Activities to Enhance Predoctoral Training. See Notice [NOT-GM-19-015](#).
- **January 07, 2019** - Notice of Availability of Administrative Supplements for Equipment Purchases for NIGMS Awardees. See Notice [NOT-GM-19-013](#).
- **November 26, 2018** - Alzheimer's-focused administrative supplements for NIH grants that are not focused on Alzheimer's disease. See Notice [NOT-AG-18-039](#).
- **November 21, 2018** - Notice of Availability of Administrative Supplements for Advancing Computational Modeling and Data Analytics Relevant to Mental Health [NOT-MH-19-004](#).
- **October 23, 2018** - Notice Announcing NIEHS Use PA-18-591. See Notice [NOT-ES-19-002](#).
- **October 19, 2018** - See Notice [NOT-TR-19-001](#).
- **October 15, 2018** - Notice Announcing NIEHS Use PA-18-591. See Notice [NOT-ES-19-002](#).
- **October 2, 2018** - NIAID, NIDA, and ORIP Interest in Administrative Supplements to Address the Research and Resources Needed to Develop Vaccines Targeting Opioids. See Notice [NOT-AI-18-055](#).
- **August 28, 2018** - NHLBI Interest in Administrative Supplements to Enhance HIV-related Heart, Lung, Blood, and Sleep Research. See Notice [NOT-HL-18-648](#).
 - **August 23, 2018** - Administrative Supplements for Validation of Novel Non-Addictive Pain Targets (Clinical Trials Not Allowed). See Notice [NOT-NS-18-073](#).
 - **July 27, 2018** - Notice of Availability of Administrative Supplements for Tissue Chip Consortium Awardees: Development of Tissue Chips to Model Nociception, Opioid Addiction and Overdose. See Notice [NOT-TR-18-027](#).
 - **July 11, 2018** - Notice of Change to Instructions for NOT-OD-18-195. See Notice [NOT-OD-18-203](#).
 - **July 11, 2018** - Notice of Change to Instructions for NOT-OD-18-194. See Notice [NOT-OD-18-204](#).
 - **June 29, 2018** - Notice of Availability of Administrative Supplements for Integrative Data Analysis to extend Research in Cancer Control and Population Sciences (Admin Supp Clinical Trial - Optional). See Notice [NOT-CA-18-087](#).
 - **June 28, 2018** - Notice of Availability of Administrative Supplements for NCI Grant and Cooperative Agreement Awards to Support Pediatric Cancer Control Research Across the Lifespan (Admin Supp Clinical Trial Optional). See Notice [NOT-CA-18-088](#).
 - **June 25, 2018** - Request for Administrative Supplements for Basic Research on Opioids to Existing Grant Awards. See Notice [NOT-DA-18-014](#).

- [June 20, 2018](#) - Notice of Availability of Administrative Supplements for NIH Grants Focused on Down Syndrome to Address Specific Down Syndrome Research Objectives. See Notice [NOT-OD-18-195](#).
- [June 20, 2018](#) - Notice of Availability of Administrative Supplements for NIH Grants that are NOT Focused on Down Syndrome to Address Specific Down Syndrome Research Objectives. See Notice [NOT-OD-18-194](#).
- [June 15, 2018](#) - Notice of Availability of Administrative Supplements to Support Tool and Resource Development to Address Racial and Ethnic Disparities in Multiple Myeloma. See Notice [NOT-CA-18-077](#).
- [June 11, 2018](#) - Notice of Availability of Administrative Supplements to NIBIB Grants: Machine Learning and Deep Learning Solutions. See Notice [NOT-EB-18-021](#).
- [June 11, 2018](#) - Notice of Availability of Administrative Supplements to NIBIB Grants: Personalized Imaging Technologies. See Notice [NOT-EB-18-020](#).
- [June 8, 2018](#) - Notice of Availability of Administrative Supplements to Support Acquisition and Annotation of Biospecimens from Racial/Ethnically Diverse Cancer Patients for the Development of Models for the Human Cancer Models Initiative (HCMI). See Notice [NOT-CA-18-076](#).
- [June 05, 2018](#) - Notice of Availability of Administrative Supplements to NIBIB C3i Participants for Advancing Innovation. See Notice [NOT-EB-18-018](#).
- [April 30, 2018](#) - Notice of NIAID's Participation in NOT-AG-18-008. See Notice [NOT-AI-18-032](#).
- [March 13, 2018](#) - Correction to Fellowship Administrative Supplement Package Associated with PA-18-591. See Notice [NOT-OD-18-151](#).
- [February 20, 2018](#) - Notice of Availability of Administrative Supplements for Advancing Computational Modeling and Data Analytics Relevant to Mental Health. See Notice [NOT-MH-18-023](#).

Funding Opportunity Purpose

The National Institutes of Health (NIH) hereby notify Program Directors/Principal Investigators (PD(s)/PI(s)) holding specific types of NIH research grants listed in the full Funding Opportunity Announcement (FOA) that funds may be available for administrative supplements to meet increased costs that are within the scope of the approved award, but were unforeseen when the new or renewal application or grant progress report for non-competing continuation

support was submitted. Applications for administrative supplements are considered prior approval requests (as described in [Section 8.1.2.11 of the NIH Grants Policy Statement](#)) and will be routed directly to the Grants Management Officer of the parent award.

Although requests for administrative supplements may be submitted through this FOA, there is no guarantee that funds are available from the awarding IC or for any specific grant. **All applicants are encouraged to discuss potential requests with the awarding IC. Additionally, prior to submission, applicants must review the awarding IC's web site to ensure they meet the IC's requirements.** A list of those web sites is available at https://grants.nih.gov/grants/guide/admin_supp/index.htm.

Required Application Instructions

It is critical that applicants follow the instructions in the Application Guide ([SF424 \(R&R\) Application Guide](#), [eRA Commons Administrative Supplement User Guide](#) or [PHS 398 Application Guide](#), as appropriate) except where instructed to do otherwise (in this FOA or in a Notice from the [NIH Guide for Grants and Contracts](#)). Conformance to all requirements (both in the Application Guide and the FOA) is required and strictly enforced. Applicants must read and follow all application instructions in the Application Guide as well as any program-specific instructions noted in [Section IV](#). When the program-specific instructions deviate from those in the Application Guide, follow the program-specific instructions. **Applications that do not comply with these instructions may be delayed or not accepted.**

There are several options available to submit your application through Grants.gov to NIH and Department of Health and Human Services partners. You **must** use one of these submission options to access the application forms for this opportunity.

1. Use the NIH ASSIST system to prepare, submit and track your application online.
2. Use an institutional system-to-system (S2S) solution to prepare and submit your application to Grants.gov and [eRA Commons](#) to track your application. Check with your institutional officials regarding availability.
3. Use [Grants.gov](#) Workspace to prepare and submit your application and [eRA Commons](#) to track your application.

[Section VII. Agency Contacts](#)

[Section VIII. Other Information](#)

Part 2. Full Text of Announcement

Section I. Funding Opportunity Description

[See Section VIII. Other Information for award authorities and regulations.](#)

Section II. Award Information

Funding Instrument

The funding instrument will be the same as the parent award.

Grant: A support mechanism providing money, property, or both to an eligible entity to carry out an approved project or activity.

Cooperative Agreement: A support mechanism used when there will be substantial Federal scientific or programmatic involvement. Substantial involvement means that, after award, NIH scientific or program staff will assist, guide, coordinate, or participate in project activities. See Section VI.2 for additional information about the substantial involvement for this FOA.

Other: A mechanism that is not a grant or cooperative agreement. Examples include access to research resources or pre-applications

Application Types Allowed

Non-competing Administrative Supplements

Clinical Trial?

Optional: Accepting applications that either propose or do not propose clinical trial(s)

[Need help determining whether you are doing a clinical trial?](#)

Funds Available and Anticipated Number of Awards

The number of awards is contingent upon NIH appropriations and the submission of a sufficient number of meritorious applications.

Award Budget

Application budgets are limited to no more than the amount of the current parent award, and must reflect the actual needs of the proposed project.

The funding mechanism being used to support this program, administrative supplements, can be used to cover cost increases that are associated with achieving certain new research objectives, as long as the research objectives are within the original scope of the peer reviewed and approved project, or the cost increases are for unanticipated expenses within the original scope of the project. Any cost increases need to result from making modifications to the project that would increase or preserve the overall impact of the project consistent with its originally approved objectives and purposes.

Award Project Period

The project and budget periods must be within the currently approved project period for the existing parent award.

NIH grants policies as described in the [NIH Grants Policy Statement](#) will apply to the applications submitted and awards made from this FOA.

Section III. Eligibility Information

1. Eligible Applicants

Eligible Organizations

All organizations administering an eligible parent award may apply for a supplement under this announcement.

Higher Education Institutions

- Public/State Controlled Institutions of Higher Education
- Private Institutions of Higher Education

The following types of Higher Education Institutions are always encouraged to apply for NIH support as Public or Private Institutions of Higher Education:

- Hispanic-serving Institutions
- Historically Black Colleges and Universities (HBCUs)
- Tribally Controlled Colleges and Universities (TCCUs)
- Alaska Native and Native Hawaiian Serving Institutions
- Asian American Native American Pacific Islander Serving Institutions (AANAPISIs)

Nonprofits Other Than Institutions of Higher Education

- Nonprofits with 501(c)(3) IRS Status (Other than Institutions of Higher Education)
- Nonprofits without 501(c)(3) IRS Status (Other than Institutions of Higher Education)

For-Profit Organizations

- Small Businesses
- For-Profit Organizations (Other than Small Businesses)

Governments

- State Governments
- County Governments
- City or Township Governments
- Special District Governments
- Indian/Native American Tribal Governments (Federally Recognized)
- Indian/Native American Tribal Governments (Other than Federally Recognized)
- Eligible Agencies of the Federal Government
- U.S. Territory or Possession

Other

- Independent School Districts
- Public Housing Authorities/Indian Housing Authorities
- Native American Tribal Organizations (other than Federally recognized tribal governments)
- Faith-based or Community-based Organizations
- Regional Organizations
- Non-domestic (non-U.S.) Entities (Foreign Institutions)

This announcement is for supplements to existing projects. To be eligible, the parent award must be active and the research proposed in the supplement must be accomplished within the competitive segment. The proposed supplement must be to provide for an increase in costs due to unforeseen circumstances. All additional costs must be within the scope of the peer reviewed and approved project.

IMPORTANT: The research proposed by the NIH grantee in the supplement application must be within the original scope of the NIH-supported grant project.

Foreign Institutions

Non-domestic (non-U.S.) Entities (Foreign Institutions) **are** eligible to apply.

Non-domestic (non-U.S.) components of U.S. Organizations **are** eligible to apply.

Foreign components, as [defined in the NIH Grants Policy Statement](#), **are** allowed.

Required Registrations

Applicant Organizations

Applicant organizations must complete and maintain the following registrations as described in the SF 424 (R&R) Application Guide to be eligible to apply for or receive an award. Since administrative supplements are made against active grants and cooperative agreements, many of these registrations may already be in place. All registrations must be completed prior to the application being submitted. Registration can take 6 weeks or more, so applicants should begin the registration process as soon as possible. The [NIH Policy on Late Submission of Grant Applications](#) states that failure to complete registrations in advance of a due date is not a valid reason for a late submission.

- [Dun and Bradstreet Universal Numbering System \(DUNS\)](#) - All registrations require that applicants be issued a DUNS number. After obtaining a DUNS number, applicants can begin both SAM and eRA Commons registrations. The same DUNS number must be used for all registrations, as well as on the grant application.
- [System for Award Management \(SAM\)](#) (formerly CCR) – Applicants must complete and maintain an active registration, **which requires renewal at least annually**. The renewal process may require as much time as the initial registration. SAM registration includes the assignment of a Commercial and Government Entity (CAGE) Code for domestic organizations which have not already been assigned a CAGE Code.
 - [NATO Commercial and Government Entity \(NCAGE\) Code](#) – Foreign organizations must obtain an NCAGE code (in lieu of a CAGE code) in order to register in SAM.
- [eRA Commons](#) - Applicants must have an active DUNS number and SAM registration in order to complete the eRA Commons registration. Organizations can register with the eRA Commons as they are working through their SAM or Grants.gov registration. eRA Commons requires organizations to identify at least one Signing Official (SO) and at least one Program Director/Principal Investigator (PD/PI) account in order to submit an application.
- [Grants.gov](#) – Applicants must have an active DUNS number and SAM registration in order to complete the Grants.gov registration. Grants.gov registration is only required if you plan to submit using the 'Electronic Application Submission through Grants.gov' option.

Program Directors/Principal Investigators (PD(s)/PI(s))

All PD(s)/PI(s) must have an eRA Commons account. PD(s)/PI(s) should work with their organizational officials to either create a new account or to affiliate their existing account with the applicant organization in eRA Commons. If the PD/PI is also the organizational Signing Official, they must have two distinct eRA Commons accounts, one for each role. Obtaining an eRA Commons account can take up to 2 weeks.

Eligible Individuals (Program Director/Principal Investigator)

Individual(s) must hold an active grant or cooperative agreement, and the research proposed in the supplement must be accomplished within the competitive segment of the active award. Individuals are encouraged to work with their organizations to develop applications for support.

For supplements to parent awards that include multiple PDs/Pis, the supplement may be requested by any or

all of the PDs/PIs (in accordance with the existing leadership plan) and submitted by the awardee institution of the parent award. Do not use this administrative supplement application to add, delete, or change the PDs/PIs listed on the parent award. Visit the Multiple Program Director/Principal Investigator Policy in the SF424 (R&R) Application Guide for more information.

2. Cost Sharing

This FOA does not require cost sharing as defined in the [NIH Grants Policy Statement](#).

3. Additional Information on Eligibility

Number of Applications

Applicant organizations may submit more than one application, provided that each is sufficiently distinct from any other administrative supplement currently under consideration by the awarding NIH Institute or Center.

Since applications to this announcement will only receive administrative review by the awarding Institute or Center, and will not receive a peer review, the NIH policy on resubmissions will not apply. However, applications not accepted by the Institute or Center for review, or not funded by the Institute or Center, should not be submitted again without either responding to any written concerns or contacting the awarding Institute or Center for instructions.

Section IV. Application and Submission Information

1. Requesting an Application Package

Applicants must prepare applications using current forms in accordance with the Application Guide.

You must use one of the submission options listed above the Table of Contents in Part 1 of this FOA to access the application forms needed to apply to this opportunity.

2. Content and Form of Application Submission

All forms must be completed for the supplemental activities **only** and must not reflect funding or activities for the previously awarded parent award.

It is critical that applicants follow the instructions for their submission option ([SF424 \(R&R\) Application Guide](#), [eRA Commons Administrative Supplement User Guide](#) or [PHS 398 Application Guide](#), as appropriate) except where instructed in this funding opportunity announcement to do otherwise. Conformance to documented requirements is required and strictly enforced. Applications that are out of compliance with these instructions may be delayed or not accepted for review.

For information on Application Submission and Receipt, visit [Frequently Asked Questions – Application Guide, Electronic Submission of Grant Applications](#).

Page Limitations

All page limitations applicable to the parent award as described in the Application Guide and the [Table of Page Limits](#) must be followed.

Application Submission

Administrative supplement requests for all single-project activity codes can be submitted using either paper or electronic submission processes. Administrative supplement requests for multi-project activity codes must be submitted using the paper submission process. See Activity Code section in Part 1 to determine if electronic submission is an option for your activity code.

Applicants submitting paper applications must use the PHS 398 Application Forms and the PHS 398 Application Guide.

Instructions for Electronic Application Submission through the NIH ASSIST system, an institutional system-to-system (S2S) solution, or Grants.gov Workspace

If presented with more than one form package, use the Competition ID and Competition Titles provided to determine the most appropriate application forms package for your situation.

Prepare applications using the SF424 (R&R) forms associated with the chosen package. Please note that some forms marked optional in the application package are required for submission of applications for this announcement. Follow all instructions in the [SF424 \(R&R\) Application Guide](#) to ensure you complete all appropriate required and optional forms, with the following additional guidance:

- **R&R Cover form:** Select "Revision" in the "Type of Application" field.
- **Project/Performance Site Locations form:** Include the primary site where the proposed supplement activities will be performed. If a portion of the proposed supplement activities will be performed at any other site(s), identify the locations in the fields provided.
- **R&R Other Project Information form:** If applicable, attach PDF documents in the "Other Attachments" field indicating that the proposed research experience was approved by the Institutional Animal Care and Use Committee (IACUC) or human subjects Institutional Review Board (IRB) at the grantee institution. Name the documents "IACUC Documentation.pdf" and/or "IRB Documentation.pdf".
- **R&R Senior/Key Person Profile (Expanded) form:** List the PD/PI as the first person (regardless of their role on the supplement activities). List any other Senior/Key Personnel who are being added through this supplement, or for whom additional funds are being requested through this supplement; include a biographical sketch for each.
- **Budget forms (e.g., R&R Budget, PHS 398 Training Budget):** Only include funds requested for the additional supplement activities.
- **PHS 398 Research Plan form:** At a minimum, the Research Strategy section should be completed and must include a summary or abstract of the funded parent award or project. Other sections should also be included if they are being changed by the proposed supplement activities.
- **PHS Human Subjects and Clinical Trial Information:** This form is optional. Given that the proposed supplement should not change the scope of the awarded parent project, it will typically not be needed. If new recruitment or use of an additional existing dataset or resource is proposed in the supplement application, Section 2.4 should be revised and new Inclusion Enrollment Reports created, as appropriate.

Special Instructions for Streamlined Submissions using the eRA Commons for electronic-based submissions

NIH offers a streamlined system through the eRA Commons for submitting administrative supplements. Login to the [eRA Commons](#), identify the parent award, and prepare an administrative supplement request. A [User's Guide](#) for submitting through this system is available, with the following additional guidance:

- Budget information should be entered for the grantee institution in the tabs provided for each selected budget period.
- Since there is no template or form available for subaward budget information, all subaward information must be included as a PDF attachment in the Subrecipient Budgets section showing the funds requested (by budget period) and using the same categories provided for the grantee institution. The attachment must also include any related budget justification information.

Use the "Add Other Attachments" function to include the following PDF documents:

- Research Strategy including a summary or abstract of the funded parent award or project.
- If applicable, attach documents indicating that the proposed research experience was approved by the Institutional Animal Care and Use Committee (IACUC) or human subjects Institutional Review Board (IRB) at the grantee institution. Adherence to the NIH policy for including women and minorities in clinical studies must also be ensured, if additional human subjects' involvement is planned for the supplement component.

Instructions for Paper-based Submissions using the PHS 398 Application Forms

Applications must be prepared using the [PHS 398 research grant application forms and instructions](#) for preparing a research grant application, with the following additional guidance:

- Checklist: Select "Revision" in the "Type of Application" field.
- Face Page (Form Page 1): On the face page of the application form, note that your application is in response to a specific program announcement, and enter the title and number of this announcement.
- Research Plan: At a minimum, the Research Strategy section should be completed and must include a summary or abstract of the funded parent award or project. Other sections should also be included if they are being changed by the proposed supplement activities.
- Project/Performance Sites section (Form Page 2): Include the primary site where the proposed supplement activities will be performed. If a portion of the proposed supplement activities will be performed at any other site(s), identify the locations in the fields provided.
- Sr/Key Personnel section (Form Page 2): List the PD/PI as the first person (regardless of their role on the supplement activities). List any other Senior/Key Personnel who are being added through this supplement, or for whom additional funds are being requested through this supplement; include a biographical sketch for each.
- Budget for Entire Proposed Project Period (Form Page 5): A proposed budget should be submitted using the PHS 398 budget forms and should only include funds requested for the additional supplement activities.
- If applicable, attach documentation in the Appendix section indicating that the proposed research experience was approved by the Institutional Animal Care and Use Committee (IACUC) or human subjects Institutional Review Board (IRB) at the grantee institution.
- **PHS Human Subjects and Clinical Trial Information:** This form is optional. Given that the proposed supplement should not change the scope of the awarded parent project, it will typically not be needed. If new recruitment or use of an additional existing dataset or resource is proposed in the supplement application, Section 2.4 should be revised and new Inclusion Enrollment Reports created, as appropriate.

The grantee institution, on behalf of the PD/PI of the parent award, must submit the request for supplemental funds directly to the awarding component that supports the parent award.

Foreign Institutions

Foreign (non-U.S.) institutions must follow policies described in the [NIH Grants Policy Statement](#), and procedures for foreign institutions described throughout the Application Guide.

3. Unique Entity Identifier and System for Award Management (SAM)

See Part 1. Section III.1 for information regarding the requirement for obtaining a unique entity identifier and for completing and maintaining active registrations in System for Award Management (SAM), NATO

Commercial and Government Entity (NCAGE) Code (if applicable), eRA Commons, and Grants.gov.

4. Submission Dates and Times

[Part I. Overview Information](#) contains information about Key Dates and Times.

5. Intergovernmental Review (E.O. 12372)

This initiative is not subject to [intergovernmental review](#).

6. Funding Restrictions

All NIH awards are subject to the terms and conditions, cost principles, and other considerations described in the [NIH Grants Policy Statement](#).

Pre-award costs are allowable only as described in the [NIH Grants Policy Statement](#).

7. Other Submission Requirements and Information

Applications must be submitted using the instructions specified above.

Applicants must complete all required registrations prior to submission. [Section III. Eligibility Information](#) contains information about registration.

For assistance with your electronic application or for more information on the electronic submission process, visit [Applying Electronically](#). For assistance with application submission contact the Application Submission Contacts in [Section VII](#).

Important reminders:

For applications submitted electronically on the SF424 (R&R) Application forms, all PD(s)/PI(s) must include their eRA Commons ID in the Credential field of the Senior/Key Person Profile form of the SF 424(R&R) Application Package. Failure to register in the Commons and to include a valid PD/PI Commons ID in the credential field will prevent the successful submission of an electronic application to NIH.

The applicant organization must ensure that the DUNS number it provides on the application is the same number used in the organization's profile in the eRA Commons and for the (SAM). Additional information may be found in the Application Guide.

See [more tips](#) for avoiding common errors.

Post Submission Materials

Not Applicable

Section V. Application Review Information

1. Criteria

Administrative Supplements do not receive peer review. Instead, the administrative criteria described below will be considered in the administrative evaluation process.

The staff of the NIH awarding component will evaluate requests for a supplement to determine its overall merit. The following general criteria will be used:

Budget and Period of Support

NIH staff will consider whether the budget and the requested period of support are fully justified and

reasonable in relation to the proposed research.

Overall Impact

NIH staff will consider the ability of the proposed supplement activities to increase or preserve the parent award's overall impact within the original scope of award, as appropriate:

- Will the administrative supplement increase or preserve the likelihood for the project to exert a sustained, powerful influence on the research field(s) involved?
- Will the administrative supplement increase or preserve the likelihood that the fellowship will enhance the candidate's potential for, and commitment to, a productive, independent scientific research career in a health-related field?
- Will the administrative supplement increase or preserve the likelihood for the candidate to maintain a strong research program?
- Will the administrative supplement increase or preserve the potential benefit of the instrument requested for the overall research community and its potential impact on NIH-funded research?

In addition, each of the following criteria will be evaluated as applicable for the proposed supplement.

Protections for Human Subjects:

For research that involves human subjects but does not involve one of the six categories of research that are exempt under 45 CFR Part 46, NIH staff will evaluate the justification for involvement of human subjects and the proposed protections from research risk relating to their participation according to the following five review criteria: 1) risk to subjects, 2) adequacy of protection against risks, 3) potential benefits to the subjects and others, 4) importance of the knowledge to be gained, and 5) data and safety monitoring for clinical trials.

For research that involves human subjects and meets the criteria for one or more of the six categories of research that are exempt under 45 CFR Part 46, NIH staff will evaluate: 1) the justification for the exemption, 2) human subjects involvement and characteristics, and 3) sources of materials.

Inclusion of Women, Minorities, and Children

When the proposed project involves human subjects and/or NIH-defined clinical research, NIH staff will evaluate the proposed plans for the inclusion (or exclusion) of individuals on the basis of sex/gender, race, and ethnicity, as well as the inclusion (or exclusion) of children to determine if it is justified in terms of the scientific goals and research strategy proposed..

Vertebrate Animals

NIH staff will evaluate the involvement of live vertebrate animals as part of the scientific assessment according to the following points: (1) description of proposed procedures involving animals, including species, strains, ages, sex, and total number to be used; (2) justifications for the use of animals versus alternative models and for the appropriateness of the species proposed; (3) interventions to minimize discomfort, distress, pain and injury; and (4) justification for euthanasia method if NOT consistent with the AVMA Guidelines for the Euthanasia of Animals. NIH staff will assess the use of chimpanzees as they would any other application proposing the use of vertebrate animals.

Biohazards

NIH staff will assess whether materials or procedures proposed are potentially hazardous to research personnel and/or the environment, and if needed, determine whether adequate protection is proposed.

2. Review and Selection Process

Administrative supplement requests will undergo an administrative evaluation by NIH staff, but not a full peer review. Applications submitted for this funding opportunity will be assigned to the awarding component for the

parent award and will be administratively evaluated using the criteria shown above.

3. Anticipated Announcement and Award Dates

Not Applicable

Section VI. Award Administration Information

1. Award Notices

A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization for successful applications. This may be as an NoA for the supplemental activities only; alternatively, it may be as either a revision to the current year NoA or included as part of a future year NoA. The NoA signed by the grants management officer is the authorizing document and will be sent via email to the grantee's business official.

Awardees must comply with any funding restrictions described in [Section IV.5. Funding Restrictions](#).

Selection of an application for award is not an authorization to begin performance. Any costs incurred before receipt of the NoA are at the recipient's risk. These costs may be reimbursed only to the extent considered allowable pre-award costs.

Any application awarded in response to this FOA will be subject to terms and conditions found on the [Award Conditions and Information for NIH Grants](#) website. This includes any recent legislation and policy applicable to awards that is highlighted on this website. When calculating the award for additional funds, NIH will 1) prorate funding if the requested budget period is adjusted at the time of award, and 2) use the institution's current F&A rate; i.e., the rate in effect when the new funding is provided.

2. Administrative and National Policy Requirements

All NIH grant and cooperative agreement awards include the [NIH Grants Policy Statement](#) as part of the NoA. For these terms of award, see the [NIH Grants Policy Statement Part II: Terms and Conditions of NIH Grant Awards, Subpart A: General](#) and [Part II: Terms and Conditions of NIH Grant Awards, Subpart B: Terms and Conditions for Specific Types of Grants, Grantees, and Activities](#). More information is provided at [Award Conditions and Information for NIH Grants](#).

Recipients of federal financial assistance (FFA) from HHS must administer their programs in compliance with federal civil rights law. This means that recipients of HHS funds must ensure equal access to their programs without regard to a person's race, color, national origin, disability, age and, in some circumstances, sex and religion. This includes ensuring your programs are accessible to persons with limited English proficiency.

HHS recognizes that research projects are often limited in scope for many reasons that are nondiscriminatory, such as the principal investigator's scientific interest, funding limitations, recruitment requirements, and other considerations. Thus, criteria in research protocols that target or exclude certain populations are warranted where nondiscriminatory justifications establish that such criteria are appropriate with respect to the health or safety of the subjects, the scientific study design, or the purpose of the research.

For additional guidance regarding how the provisions apply to NIH grant programs, please contact the Scientific/Research Contact that is identified in Section VII under Agency Contacts of this FOA. HHS provides general guidance to recipients of FFA on meeting their legal obligation to take reasonable steps to provide meaningful access to their programs by persons with limited English proficiency. Please see <https://www.hhs.gov/civil-rights/for-individuals/special-topics/limited-english-proficiency/index.html>. The HHS Office for Civil Rights also provides guidance on complying with civil rights laws enforced by HHS. Please see <http://www.hhs.gov/ocr/civilrights/understanding/section1557/index.html>; and <https://www.hhs.gov/civil->

[rights/for-providers/laws-regulations-guidance/index.html](https://www.hhs.gov/ocivilrights/understanding/disability/index.html). Recipients of FFA also have specific legal obligations for serving qualified individuals with disabilities. Please see <http://www.hhs.gov/ocivilrights/understanding/disability/index.html>. Please contact the HHS Office for Civil Rights for more information about obligations and prohibitions under federal civil rights laws at <https://www.hhs.gov/oc/about-us/contact-us/index.html> or call 1-800-368-1019 or TDD 1-800-537-7697. Also note it is an HHS Departmental goal to ensure access to quality, culturally competent care, including long-term services and supports, for vulnerable populations. For further guidance on providing culturally and linguistically appropriate services, recipients should review the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care at <http://minorityhealth.hhs.gov/omh/browse.aspx?lvl=2&lvlid=53>.

In accordance with the statutory provisions contained in Section 872 of the Duncan Hunter National Defense Authorization Act of Fiscal Year 2009 (Public Law 110-417), NIH awards will be subject to the Federal Awardee Performance and Integrity Information System (FAPIIS) requirements. FAPIIS requires Federal award making officials to review and consider information about an applicant in the designated integrity and performance system (currently FAPIIS) prior to making an award. An applicant, at its option, may review information in the designated integrity and performance systems accessible through FAPIIS and comment on any information about itself that a Federal agency previously entered and is currently in FAPIIS. The Federal awarding agency will consider any comments by the applicant, in addition to other information in FAPIIS, in making a judgement about the applicant's integrity, business ethics, and record of performance under Federal awards when completing the review of risk posed by applicants as described in 45 CFR Part 75.205 "Federal awarding agency review of risk posed by applicants." This provision will apply to all NIH grants and cooperative agreements except fellowships.

Cooperative Agreement Terms and Conditions of Award

Any supplements to Cooperative Agreements will be subject to the same Cooperative Agreement terms and conditions as the parent award.

3. Reporting

Reporting requirements will be specified in the terms and conditions of award as applicable to the supplemental activities. In most non-competing continuation applications, the progress report and budget for the supplement must be included with, but clearly delineated from, the progress report and budget for the parent award. The progress report must include information about the activities supported by the supplement even if support for future years is not requested. Continuation of support for the supplement activities in the remaining years of the competitive segment of the grant will depend upon satisfactory review by the NIH awarding component of progress for both the parent award and the supplement project, the research proposed for the next budget period, and the appropriateness of the proposed budget for the proposed effort. This information is submitted with the [Research Performance Progress Report \(RPPR\)](#) and financial statements as required in the [NIH Grants Policy Statement](#).

The Federal Funding Accountability and Transparency Act of 2006 (Transparency Act), includes a requirement for awardees of Federal grants to report information about first-tier subawards and executive compensation under Federal assistance awards issued in FY2011 or later. All awardees of applicable NIH grants and cooperative agreements are required to report to the Federal Subaward Reporting System (FSRS) available at www.fsr.gov on all subawards over \$25,000. See the [NIH Grants Policy Statement](#) for additional information on this reporting requirement.

In accordance with the regulatory requirements provided at 45 CFR 75.113 and Appendix XII to 45 CFR Part 75, recipients that have currently active Federal grants, cooperative agreements, and procurement contracts from all Federal awarding agencies with a cumulative total value greater than \$10,000,000 for any period of

time during the period of performance of a Federal award, must report and maintain the currency of information reported in the System for Award Management (SAM) about civil, criminal, and administrative proceedings in connection with the award or performance of a Federal award that reached final disposition within the most recent five-year period. The recipient must also make semiannual disclosures regarding such proceedings. Proceedings information will be made publicly available in the designated integrity and performance system (currently FAPIIS). This is a statutory requirement under section 872 of Public Law 110-417, as amended (41 U.S.C. 2313). As required by section 3010 of Public Law 111-212, all information posted in the designated integrity and performance system on or after April 15, 2011, except past performance reviews required for Federal procurement contracts, will be publicly available. Full reporting requirements and procedures are found in Appendix XII to 45 CFR Part 75 – Award Term and Conditions for Recipient Integrity and Performance Matters.

Section VII. Agency Contacts

We encourage inquiries concerning this funding opportunity and welcome the opportunity to answer questions from potential applicants.

Application Submission Contacts

eRA Service Desk (Questions regarding ASSIST, eRA Commons registration, submitting and tracking an application, documenting system problems that threaten submission by the due date, post submission issues) Finding Help Online: <http://grants.nih.gov/support/> (preferred method of contact)

Section VIII. Other Information

Recently issued trans-NIH [policy notices](#) may affect your application submission. A full list of policy notices published by NIH is provided in the [NIH Guide for Grants and Contracts](#). All awards are subject to the terms and conditions, cost principles, and other considerations described in the [NIH Grants Policy Statement](#).

Authority and Regulations

Awards are made under the authorization of Sections 301 and 405 of the Public Health Service Act as

amended (42 USC 241 and 284) and under Federal Regulations 42 CFR Part 52 and 45 CFR Part 75.
